

**Letter of Recommendation  
Benchmark Construction, Inc.  
2101 Delta Dr. Nampa, ID**

Benchmark Construction, Inc. was engaged to build our D.L. Evans branch at 2560 E. Fairview Ave, Meridian Idaho in April 2004.

The base project consisted of a new 4927 sq foot branch bank and all associated site work.

The construction company completed the project on August 27, 2004 when we received the occupancy permit.

I would consider the quality of work to be very good; time lines were met and projected cost of project was maintained.

I would recommend Benchmark Construction, Inc. to be a very good construction company and business partner.

Sincerely,

Tonya Smith  
Vice President and Branch Manager
