To Whom It May Concern:

Because of D.L Evans Bank' satisfaction in the quality of work on the construction of several new branch offices buildings by Benchmark Construction, they were contracted to do major remodeling of an existing building. This remodel was to bring an open floor plan to banking needs.

The construction was done in a very timely manner and cost was held to a very reasonable amount. The Quality of their work was excellent.

They communicated with us very well before, during, and after construction to make sure that our needs were being met.

I'm pleased to recommend Benchmark Construction because of their quality of work, their timeliness and their desire to please.

Sincerely,

June York

Asst. Vice Pres. and Branch Manager
