Benchmark Construction, Inc.
2101 Delta Drive
Nampa, Idaho 83687

Dear Layton,

Homedale Friends Church would like to take this opportunity to express our appreciation for your hard work in building our new church. Choosing a general contractor at the inception of our church project was extremely difficult. We knew that a project of this size would encounter many obstacles and problems, and we prayed that God would lead us to a contractor who would resolve these obstacles and problems with patience, common sense, and vision.

Now that our building has reached completion of phase one, we realize that we chose the right contractor. We appreciate the relationship that has developed with Benchmark Construction. We did in fact encounter those obstacles and problems that were anticipated, including a lack of communication and a complete desertion of other professionals involved in the project. Benchmark was always willing to sit down with our site supervisor and grind out a solution when needed.

We are especially impressed with your site manager Ron O'Neal. We feel as though he is one of us and took pride in the project. The weekly meetings enhanced communication, direction, and coordination. As with most non-profit entities money was an issue and it is important that we are good stewards of other's money. Thanks to Benchmark Construction we have been able to stay very close to our budget on phase one. We are grateful that our God has provided us with a new facility in which to worship Him. You were an answer to our prayers! Thanks again for your help. May God's blessings be upon you.

Doug Larzlier, Meeting Clerk
Mikeal D. Parker, Building Committee
