

# ZIONS BANK®

---

April 15, 2006

To whom it may concern,

Benchmark Construction was the general contractor for Zions Bank when we leased an older existing bank building in Caldwell Idaho in October of 2004. We needed to get open quickly due to the "right sizing" of one of our competitors.

As is usually the case with older structures we did run into some challenges with the project. Layton Anderson was always available and to this day is still there for us if we have small projects that need to get done. The entire team at Benchmark was responsive to our needs and schedules as we completed the project.

I'd be glad to discuss any questions so please feel free to give me a call at 459-2112 at your convenience.

Sincerely

Jim Thomssen  
Vice President  
Caldwell Idaho
